Illustrative. Demo floor at Northwater Fab, Plant A. Not a survey and not a real building.

North utility chase

Gases, exhaust, and power run in this corridor.

Sub-fab callout: pumps, chillers, and abatement are on the level below this chase.

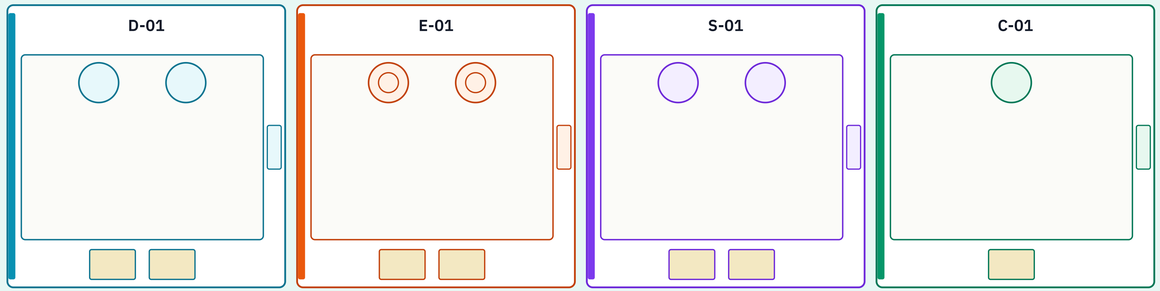

North is up

West chase
Utility

Cleanroom bay 1

Fleet bay 1. Deposition, etch, strip, and clean.

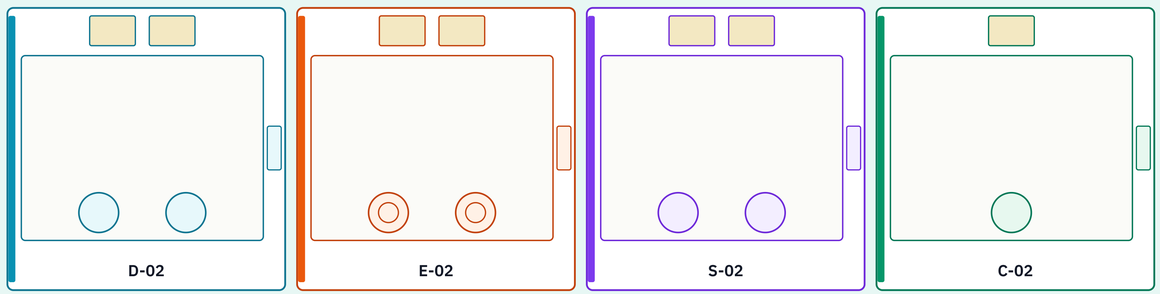

Load ports face the rail. Shapes match the drawings on the right.

Stocker
Wafer carriers

Overhead wafer rail

Stocker
Wafer carriers

Cleanroom bay 2

Fleet bay 2. Same four families.

Load ports face the rail.

East chase
Utility

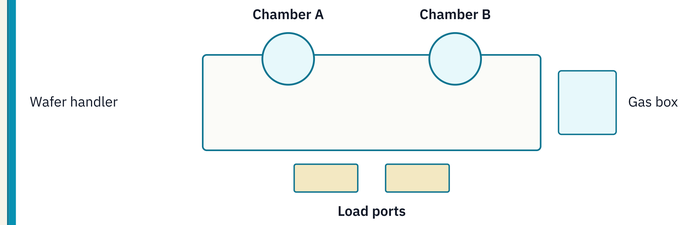

South utility chase

Exhaust and drains return in this corridor.

Ironwood Fab matches this mix. Lumen Pilot Works is strip, clean, and pilot. Not to scale.

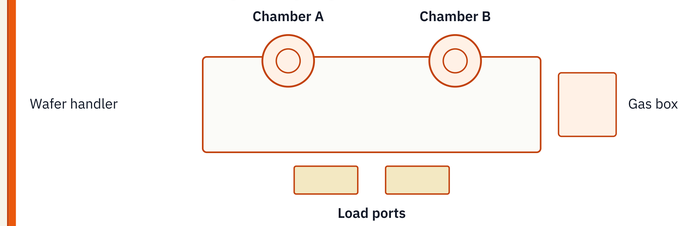

Deposition

MPS-D7. Plan view. Two chambers. Thin film.

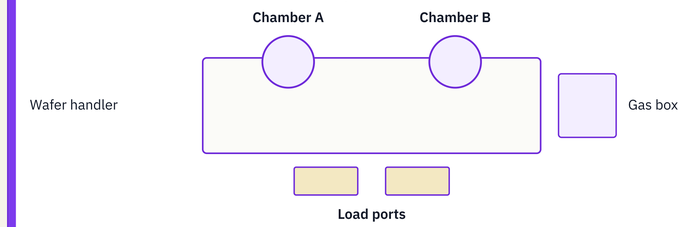

Etch

MPS-E7. Plan view. The inner ring is the edge ring.

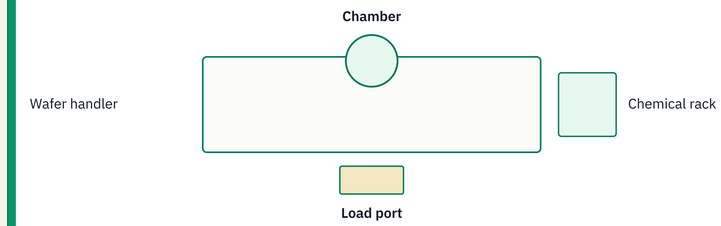

Strip

MPS-S7. Plan view. Two chambers. Photoresist strip.

Clean

MPS-C7. Plan view. One chamber. Single wafer.

LEGEND

- Cleanroom bay. Filtered air.
- Utility chase. Sub-fab is below.
- Overhead rail and stocker.
- Deposition tool. MPS-D7.
- Etch tool. MPS-E7.
- Strip tool. MPS-S7.
- Clean tool. MPS-C7.
- Plan view. Ports face the rail.
